

Healthcare Jobs

Home Health Aides and Certified Nursing Assistants are in high demand.

Home Health Aides are sent to the homes of patients who need help with daily living skills and medical needs. Nursing Assistants work in hospitals, rehabilitation centers, day care centers, nursing homes, and many other facilities.

HHAs and CNAs can work with any age (birth to hospice) and any level of ability or disability. There is a great need for both HHAs and CNAs throughout the country, which leads to great job security.

Coming Soon!

Watch for updates on the Career Campus website, gwcareercampus.com. Courses currently under development include Medical Coding and Billing courses.

Additional online courses will be uploaded throughout the year in a number of career fields, so stay tuned!
